SUBJECT LINE: CONSULTING ENGINEER POSITION

Job Description

ClearShark Enablement Services is a team of subject matter experts specially trained and certified to provide professional services in key technologies for short and long-term engagements. Our experts are experienced in providing services in specialized and sensitive areas, ensuring mission enablement and the protection of operations, infrastructure, and security interests. We are committed to developing and customizing solutions and services in many areas, including but not limited to cloud/cloud migrations, next-generation cyber security issues, and big data analytics.

Our team is seeking a Consulting Engineer to join our team. We seek an energetic, passionate senior technical resource to consult in ongoing DevOps for one of our clients.
